j-decarlo@cox.net or sgdecarlo@cox.net

The Pie in the Sky Cruise, about 200 miles round trip of nice windy roads with some great scenery. First stop is the Palomar Observatory, if we can get there by 10am we can get a guided tour, otherwise we walk through ourselves. Then off to historic Julian for Lunch and top it off with some Pie at the Julian Pie Company. Be sure to bring some home, their pies are the best! Details on Lunch location to follow soon. Bring your radios and camera everyone!
