j-decarlo@cox.net or sgdecarlo@cox.net

The 2nd Pie in the Sky Cruise, about 200 miles round trip of nice windy roads with some great scenery. First stop is the Palomar Observatory, if we can get there around 10am we can get a guided tour, otherwise we walk through ourselves. Then off to historic Julian for Lunch at the Fajita Grill and then Pie! at the Julian Pie Factory which we passed on our way in the town of Santa Ysabel. On our way back we take another route into the Temecula area where we have the option of stopping at the Bailey Winery for wine tasting. Bring your Radar Detectors and 2 way Radios!

This is a full day of driving, eating, and possibly drinking!
