A brief bio

Larry is known as **Mr. Hot Wheels**. He was the Lead Designer who worked on this line for 40+ years and is primarily responsible for its growth and success.

His garage is filled with years of Hot Wheels history including models, drawings and unique one-of-a-kind prototypes. Additionally he's a talented and fun guy for anyone interested in vehicles of any kind.

Additionally he has designed and built many full sized customized vehicles including the COE truck shown.
